Summer EXCEL Scheduling Worksheet

The scheduling worksheet is for your use only to help organize your requests before you register online.

Columns 1, 2 and 3 in the worksheet represent the number of classes you are able to take in each session. Four-week classes will run all of Session 1 and Session 2. You are not able to split four-week class hours. Class hours are 8:00 am – 8:55 am; 9:00 am – 9:55 am; and, 10:00 am – 10:55 am. **The grade level is the current grade your child is in for 2018 – 2019.**

If your schedule cannot be created with your primary requests, we will use your alternate requests to complete your schedule. Pick at least 2-3 alternates. If you do not want a full schedule of classes (one class for every hour, each session) please use the “No Class” course numbers listed below. Please be aware that we do not have a supervised room for your child to wait for their next class, a sibling or for parent pick up.

Please do not sign up for a class twice to try and guarantee that your child gets the class. In doing so, your child may be scheduled to repeat the same class. Additionally, this prevents other children from having the opportunity to take the course.
